## Chi Phis, at I. U. Two Years, Plan New House

For Homecoming decorations, the Chi Phi had the *Daily Student* announce a Michigan downfall.

After being on campus for only two years, the Chi Phis began to plan for their new house, which will be constructed within two more years. Blueprints were drawn up for a 70-man split-level house that will be situated on Fraternity Row.

In the fall the Chi Phi pledge class overhauled the Bloomington Boys' Club. The pledges spent more than a month putting in a new ceiling and floor and making two rooms out of one.

The Chi Phis were runners-up in the fraternity-sorority division of the Homecoming displays contest with a reproduction of a Michigan plane that had been shot down by Fightin' Hoosiers.

The Chi Phis were "snowbound" December 19 at their Ski Lodge Dance. Members of the fraternity and their dates came dressed as a variety of characters who might be snowbound in a mountain ski lodge. On March 26, the Roman Holiday Dance was given complete with low tables and Latin atmosphere.
